

ACT Releases SFI-Approved Performance Clutch Kit(S) for Audi, Seat, and Volkswagen 1.8L Turbo 6 Speed Applications.

LANCASTER, CALIF., Jan. 22, 2016— Advanced Clutch Technology (ACT) has released a new family of clutch kits for the Audi, Seat, and Volkswagen 1.8L Turbo 6 speed applications; see attached spec sheet for a detailed application list.

ACT’s new clutch kits for the 1.8L Turbo 6 speed include a Heavy Duty pressure plate, Streetlite flywheel, a choice of disc, release bearing, and alignment tool. The Heavy Duty pressure plate incorporates hardened diaphragm fingers for decreased wear and provides a 35% increase in clamp force over the stock unit.

The ACT Street clutch kits combine the Heavy Duty pressure plate with a performance organic street disc. The disc features premium organic friction materials able to withstand increased heat and abuse, steel-backed linings for high burst strength and modifications engineered for quicker shifting. The ACT Street clutch kit provides a moderate and consistent pedal feel, smooth engagement and significantly improved durability. These kits meet SFI Spec 1.1 and have increased torque capacity up to 410 ft.-lbs.

The ACT Race clutch kits combine the Heavy Duty pressure plate with a cerametallic Xtreme Race disc, which is available in a 6-pad spring-centered design. These discs are highly durable while allowing for quick shifting. The Xtreme Race discs are for high-powered engines and recommended for track use only. The ACT Race clutch kits meet SFI Spec 1.1 and are rated to hold up to 525 ft.-lbs. of torque at the crank.
